SATURDAY EVENING, AUGUST 10.

KILLED BY A COW'S KICK.—Dr. H. F. Forman, lecturer on Pathology in the University of Pennsylvania, visited Pottstown on Wednesday, and, in company with Drs. Schaefer, Keller, Achenfelder and Dismant, of that borough, held a post mortem examination in the case of 14-year-old Horace D. Fryer, who died last Sunday from the effects of a vigorous kick administered by a cow last February. The kick completely shattered young Fryer's breast bone, but he experienced little pain and no medical aid was summoned until a month after the injury was received. When an opening was made between the third and fourth ribs in order that the pus might be removed, to the astonishment of the local physicians what appeared to be bread crumbs and berry seeds were discharged. This fact was, however, disproved by the autopsy.

"The case is plainly one of blood poisoning," said Dr. Forman subsequently, "and is remarkable because of the long continuation of the disease. The supposed bread crumbs were fragments of gangrenous tissue that had granulated."—*Philadelphia Record.*

TREATED AS A BURGLAR.—A tale of love and persecution in the romantic region of Harrowgate came out yesterday in Judge Biddle's court, when Conrad E. Birch, a young man, was arraigned upon the serious charge of burglary, brought by Thomas and Alonzo Williams, father and son. The evidence showed that one evening while Birch was playing a game to the heart of Miss Williams, much against the wishes of her father and brother, they descended upon him so suddenly that he sought safety in a precipitate flight to the roof. Father and son followed him up and fired off an old shotgun, with the effect of accelerating the lover's flight. They then had him arrested for burglary. The jury promptly acquitted Birch.

A wonderful young Russian girl is at the Paris Exposition. Her name is Elizabeth Liska. She is only 11 years of age, and is already 6 feet 6 inches in height. Her parents are of ordinary stature, and her brothers and sisters, of whom she has five, are not above the average height.
